

Roll up, roll up! Full Steam Ahead 2019! **steamroller printing**

Castlemaine Press is ramping things up! We're embracing big scale, big machinery, big spectacle! For the second Festival running!!

On the first Sunday of the Castlemaine State Festival (March 24), community members join experienced printmakers (and a steamroller!) in printing industrial size relief prints. *Full Steam Ahead 2019!* is a printmaking spectacle, a rare opportunity to be part of making industrial sized artworks.

The public are invited to come along and get their hands inky or just roll up to enjoy the show. There's an open invitation to community members to make plates in the studio the afternoon before (Saturday March 23, 12.00 – 4.00 pm), in preparation for Sunday's spectacle.
